Archiving Documents with Adobe® Acrobat® 8

By Michael Dakan

In this issue of *Insider*, we look at how Adobe provides an ideal file format for saving and archiving project information and documents.

► Advantages of Archiving Using Adobe PDF Format

Documents stored in Adobe PDF file format offer several advantages over traditional archives. [Read More](#)

► PDF/A — The International Standard for Archived Documents

The Adobe PDF/A file format was developed through the joint efforts of Adobe and the International Standards Organization (ISO) committee to establish the International Standard file format for long-term archival storage of electronic documents. [Read More](#)

► Creating PDF/A Files from PDF Documents

You can easily create a PDF/A file from a regular PDF file simply by opening the PDF in Adobe Acrobat® 8 and selecting Save As from the File menu. [Read More](#)

► Creating PDF/A Files Directly in Authoring Applications

For applications that have PDFMaker applications installed, you can create a PDF/A file directly from the original file. [Read More](#)

► TIP: Scanning Documents

Archiving often involves scanning paper documents. To make the scanned documents searchable — key in archiving — you can use the built-in optical character recognition. [Read More](#)
